Summary

B.Sc. IT graduate with hands-on experience in React.js and MERN Stack development. Skilled in JavaScript, React.js, Node.js, Express.js, MongoDB, HTML, CSS, REST APIs and Git/GitHub. Experienced in building responsive web applications and integrating frontend applications with backend services. Strong foundation in Java, OOP and Data Structures & Algorithms. Seeking an entry-level MERN Stack Developer opportunity.

Technical Skills

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** MongoDB, MySQL
- **Tools:** Git, GitHub, Postman, VS Code
- **Programming Languages:** Java, Python, Kotlin, SQL
- **Concepts:** OOP's, CRUD Operations, JSON, API Integration, Data Structure & Algorithms

Projects

Job Portal | React.js, JavaScript, HTML, CSS

- Developed a responsive job portal using React.js.
- Implemented job search and filtering based on job role, location and job type.
- Created reusable components for job cards, navigation and filters.
- Used React Router for navigation between job listings, job details and application pages.
- Implemented saved jobs functionality using React state and localStorage.

Airbnb Clone | React.js, JavaScript, HTML, CSS

- Developed a responsive Airbnb-inspired web application using React.js.
- Built reusable components for listings, navigation and different UI sections.
- Implemented responsive layouts for desktop and mobile devices.
- Managed user interactions and application state using React.

Personal Portfolio | React.js, JavaScript, HTML, CSS

- Built a responsive personal portfolio website using React.js.
- Created reusable components for About, Skills, Projects and Contact sections.
- Implemented responsive UI for desktop and mobile devices.
- Deployed the website and managed the project using Git/GitHub.

Currency Converter | HTML, CSS, JavaScript, REST API

- Developed a currency conversion web application using JavaScript.
- Integrated a currency exchange API to fetch and display exchange rates.
- Implemented dynamic currency selection and amount conversion.

To-Do List — React.js | JavaScript | CSS

- Developed a responsive Todo List application using React.js.
- Implemented add, edit, delete and task-completion functionality.
- Used React state and reusable components to manage tasks.
- Designed a responsive user interface for desktop and mobile devices.

Experience

MERN Stack Development Intern – Inphora, Mohali

2026

- Collaborated with senior developers on the development of a responsive web application.
- Worked primarily on the frontend using React.js and reusable components.
- Implemented responsive UI layouts and contributed to frontend improvements.
- Used Git/GitHub for collaborative development and version control.

Android App Development Intern – Future Finders, Mohali

June 2025 – July 2025 | 6 Weeks

- Developed Android applications using Kotlin and MVVM architecture.
- Integrated REST APIs and Room Database.
- Debugged, tested and optimized application features.

Education

Sant Baba Bhag Singh University, Jalandhar

July 2023 - June 2026

Bachelor of Science, Information Technology

CGPA: 8.5

Achievements

- Solved 200+ DSA problems on LeetCode Arrays, Strings, Linked Lists, Trees and Recursion
- Participated in a Hackathon, gaining experience in teamwork and problem solving

Soft Skills

- Problem Solving
- Team Collaboration
- Communication
- Quick Learner
- Time Management

Languages

- Hindi
- English
